**Agenda Item #8**

July 14, 2000

To: Delta Protection Commission

From: Margit Aramburu, Executive Director

Subject: Briefing on Sacramento San Joaquin River Basin Comprehensive Study

At the last meeting, several Commissioners asked that the staff of the Comprehensive Study brief the Commission on the Study. All six of the State agencies on the Delta Protection Commission are also Participating Agencies on the Executive Committee for the Study. Much of the Delta is included in the study; some areas of the Delta are not included. The study was stimulated by the extensive flooding in January 1997, and the subsequent Governor's Flood Emergency Action Team (FEAT) Report (May 10, 1997). Phase I has been completed; the entire study is slated to be completed in 2002, including a final master plan and environmental document, including an implementation plan.

Staff of the Comprehensive Study will brief the Commission on the status of the project.

Included in the mailing packet are: Interim Report (March 1999) and most recent Newsletter (Winter 2000).
